MIGHELL'S FATE IN HANDS OF THE JURY TOMORROW

BOTH THE STATE AND DEFENSE REST THEIR SIDES OF THE CASE.

LULU FOSTER ON THE STAND

Mighell Put on Stand by Erwin Today—Testimony Same as Offered at First Trial—Edwards Begins Arguments.

BULLETIN.

States Attorney Edwards began his argument to the jury at 3:20. The case will probably go to the jury tomorrow afternoon.

The defense in the Mighell case introduced a new feature and a new witness in the case this morning when Mrs. Lulu Schroeder—who was Lulu Foster at the time of the tragedy—who is said to have told Ira Mighell of the insults alleged to have been thrown at her by Kincaid, which led up to the unfortunate occurrence, was placed on the stand.

Mrs. Schroeder was placed on the stand soon after the convention of court this morning, and her story was of especial interest, inasmuch as it was not introduced at the former trial of the case, and has never before been made public, except in the form of an interview secured exclusively by the Telegraph the night of the tragedy.

Was Good Witness.

Mrs. Schroeder was a good witness for the defense, inasmuch as her story corroborated to a great extent the story of the accident as told by the defendant. She testified:

I was over town that evening and had gone back over the bridge to see if my folks were at Hoon & Hall's grocery. They were not there and so I came back over town and I passed this group of men on the bridge. One of them, Kincaid, stepped out to me and offered me a cigar, and said: "Here, kid, have a smoke." I passed by him and he said, "Look out or I'll steal you and take you to the show."

I told him he was talking to a married woman and went on. When I got across the bridge I met Uncle Ira and spoke to him, saying, "Good evening, Uncle Ira," and he answered me. I told him there was a man back there on the bridge and that I'd like to slap his face, and he asked me why. I told him what this fellow had said to me, and he said: "We'll see."

Took His Coat.

He had his coat on his shoulder as we walked across the bridge, and when we got to the bunch of men I pointed out Kincaid. His coat brushed my shoulder and I reached out and took it. Uncle Ira said something to the fellow about insulting women and he turned around and said to Ira, "What the hell do you care," and he bent over as though he was going to strike Uncle Ira and he said a loud gasp as though he had been struck in the stomach, and I turned and walked slowly toward the end of the bridge. Uncle Ira came up in a short time and said, "I'll teach him to insult a lady," and then I came back over town and met my folks and went home." Her story of her arrest and the conversation differed in no detail from that told by the officers.

Denied Statements.

On cross examination States Attorney Edwards attempted to have the witness admit that on the night of the accident she had made certain statements in the office of the county jail, but she denied having made any of them. She said she had not told her uncle that "she would like to kill that man," and that she had formerly said that Ira had given her his coat.

Cryor Testified.

Stanley Cryor, a reporter for the Telegraph, was the first witness called by the defense when court opened this morning. He testified that he was on the bridge the night Kincaid met his death; said that he heard Kincaid say to Lulu Foster, "Well, go tell your man, then." Cryor said that he followed the girl across the bridge, and when about two-thirds of the way across he met Mighell.

On cross examination by the state he said that after he passed the two, he knew nothing of the events that occurred after the meeting.

Following Mr. Cryor, Jos. Staples

testified to taking care of the body, that the deceased had worn new shoes the night of the tragedy, and that he had shipped the remains to Kincaid's wife in Indiana.

Character Witnesses.

The defense introduced a large number of witnesses to show that Ira Mighell's reputation prior to June 3, 1911, as a peaceable, quiet and law abiding citizen was good, all of the following witnesses testifying to having known him many years, and all denying that they had ever heard of him being quarrelsome:

Attorney Henry C. Warner, Major O. J. Downing, John E. Moyer, C. A. Todd, E. N. Howell, Mahlon Forsythe, James N. Sterling, I. F. Edwards, L. D. Pitcher, Dr. C. A. Robbins, E. E. Winkert, Dr. E. A. Sickels, Dr. C. C. Kost, Wm. Hoon, Adolph Eichler and Dr. W. R. Parker. By agreement it was decided that the number of character witnesses on either side should be limited to twenty.

Francis W. Heckman testified that Ira had ridden home on his car the night of the tragedy and E. B. Preston told of knowing both Ira and Kincaid. However, the court sustained the state's objection to the introduction of any of his testimony regarding Kincaid's character as regards women.

Defendant on Stand.

At 11:15 the defendant was called to the stand, and in practically every detail the story agreed with that which he told on the first trial. He described his actions early in the evening of June 3, 1911, and finally told of meeting his niece on bridge and of her stopping him and telling him she had been insulted by a man on the other end of the bridge.

The witness continued: "I said, 'Who was he?' and she said she did not know, but that he was standing there. We walked back and as we walked along I swung my coat over my arm and she took it. I stepped over to the gentleman and said, 'What women are you insulting?' He said, 'What the hell do you care?' and struck me in the stomach. At that he stepped away from the rail I slapped him in the face with the back of my hand. He put his head down and made a lunge at me, missed his balance and struck his head on the rail of the bridge, facing northwest, and with his right arm up to strike me. I reached over and struck him with my right hand on the collar bone or the side of the back, and I turned and walked away, going to the north end of the bridge where I met my niece. I took my coat and told her to go over town and tend to her business. The blow struck on the neck didn't knock him down but he quit striking me.

Mr. Erwin drew from his client the statement that he did not intend to kill Kincaid or to do him any serious bodily harm and that he did not know he was seriously hurt until after he was arrested.

Cross Examination.

Just before the noon recess States Attorney Edwards commenced his cross examination. He went over the defendant's direct testimony carefully, point by point, and attempted to cause him to contradict himself. Mr. Mighell, however, stuck to his story well. Mr. Edwards spent considerable time in an effort to have the witness specify the identical spot on the railing Kincaid struck, and the part of his face that struck, but the witness could not be certain as to these features.

On examination as to the details of the scuffle the witness remained firm in his first testimony and he stated that he did not remember whether after starting off the bridge he turned and looked back.

He denied having talked the matter over with Lulu Foster recently or at the Foster home the night of the tragedy. The defendant was excused from the stand at 2 o'clock and Jas. Ballou was called.

Daniel Blackburn testified that the defendant's general reputation as a law abiding citizen was good. John Hoffman also testified to his good character.

Nelson Mighell testified to having measured the railing into which Kincaid fell, finding it to be 3 feet, 6 inches high.

Sergeant Gaffney.

Sergeant John Gaffney, who had been called by the state early in the trial, was called by the defense and testified that the height of the rail had not been changed in the last three years.

Defense Rested.

The defense rested its case and States Attorney Edwards called Sheriff Reid to the stand in an effort to

The state rested its case at the conclusion of yesterday afternoon's session. Dr. A. F. Moore, C. H. Bokhof and E. B. Owens being the last witnesses for the prosecution. They all testified of holding the postmortem on the Sunday following the tragedy, and of finding a fracture of the temporal bone which had caused a severe hemorrhage. Each of the surgeons on cross examination admitted that a fall could have produced the fracture, and each stated that a blow on the neck, in a downward direction could not have produced that fracture. Dr. Moore admitted in his cross examination that a patient would probably move for a short time after receiving such a fracture.

HAMILTON BADLY HURT

Noted Aviator Falls 200 Feet With His Machine.

Air Craft Turns Complete Somersault Ere Reaching the Earth—Injuries Not Fatal.

Jacksonville, Fla., Feb. 20—Charles K. Hamilton, world noted aviator and perhaps the most daring birdman left, fell 200 feet at Pablo Beach and was severely injured.

Hamilton had only been in the air a short time when the machine was seen to tilt forward and then turn a complete somersault and come to the earth. From those who saw the accident it could not be learned whether Hamilton was thrown from the machine after it started to fall or whether he saw that he could not right the machine and jumped.

Hamilton was picked up by companions and brought in an automobile to South Jacksonville, where he was placed on a stretcher in an unconscious condition and brought to this city on the ferryboat, where Conant's ambulance was waiting and rushed the injured man to the De Soto sanitarium and placed on the operating table.

Beside a badly fractured left thigh, and generally bruised and cut, Hamilton is thought to have escaped more serious injury.

TAFT SETTLES DISPUTE

Texas-New Mexico Land Squabble Ends Favoring the Latter.

Washington, Feb. 20—President Taft today added to the state of New Mexico a triangular tract of land a mile and a half in width and some 45 miles long, concerning the ownership of which there has been a dispute for the past fifty years. The Rio Grande washed away the monument marking one end of the Texas-New Mexico boundary in 1859 and it has never been replaced. Since then the river has shifted a mile and a half westward and the old boundary line was thus entirely lost. The president, acting as arbitrator, decided that the land in dispute belonged to New Mexico and not to Texas.

Attended Wedding.

Miss Grace Peck returned last evening from Freeport to the home of Mrs. E. M. Goodsell, where she is making her home. While in Freeport Miss Peck attended her brother's wedding, which occurred last Thursday.

Meeting Friday at 2:30.

Remember the yearly public meeting of the Household Economic department of the Dixon Women's club Friday, at 2:30, in the Presbyterian church parlors. Miss Crissman will sing two songs. The address by Mrs. H. M. Dunlap on 'A Balanced Ration for Man,' is one that every housekeeper in Dixon should hear. Mrs. Dunlap is a sweet and gracious lady and has a message for every woman. A small admission fee will be charged to defray expenses. Come and bring a friend.

Party the 24th.

A dancing party will be held Monday, the 24th, in Rosbrook hall, for which Seelig's orchestra will play. The attendance, doubtless, will be very large. A number from Polo expect to attend, among them being Mr. and Mrs. Pearl Herrick, Mr. and Mrs. George Strickler, Mr. and Mrs. Harry Spear, Will Unger, Glenn and Hazel Wilson, Mr. and Mrs. Thomas Straw. Beside the program of popular dances there will be a Virginia reel and quadrille for the older folks and it is being planned to make the party one for old and young.

Surprised Monday

Monday evening Mr. and Mrs. Frank Murray were peacefully resting after a strenuous day of packing up their goods, preparatory to moving to their new home at Blue Earth Minn., when about 125 of their neighbors and friends walked in on them, without even the usual ceremony of knocking.

Mr. and Mrs. Murray were astonished but as usual in such cases, they recovered and joined in the merry-making. The evening was spent in games, and a social time, followed by a sumptuous supper.

In behalf of those present Clinton Buckaloo then presented the host and hostess with a beautiful rug as a token of esteem, and wished them all joy and success in their new home.

Married Yesterday

Yesterday afternoon at 2 o'clock, Miss Bertha Irene Lahman and J. W. Anderson of Lee Center were united in marriage, Judge Scott performing the ceremony. Both are very popular young people and are receiving the congratulations of many friends today.

Ideal Club to Banquet

The members of the Ideal club will hold their annual banquet next Wednesday evening, at the home of Mrs. J. K. Reed, at which time the husbands or friends of the members will be guests.

I CAN RELIEVE

Rheumatism, Heart Disease or Kidney Trouble

In 3 Days With My Neuropathic Treatment. Will Give Services Free To Prove It.

AT THE NACHUSA HOUSE FROM MONDAY FEB. 24 TO FEB. 26.

There are hundreds of people who are suffering with either acute or chronic rheumatism in some form, neuralgia, sick headache, uric acid troubles. There are hundreds of people suffering with weakness or disease of the heart. Ninety per cent of these people have no organic disease, but just a functional trouble; yet, if it is left alone, it will produce organic disease and early death. Palpitation, shortness of breath, irritated heart action, intermittent pulse, dizzy spells, pain around the heart, fainting spells, bad circulation, cold hands and feet—all these symptoms indicate a weak heart and weak circulation through it. There are thousands of people suffering with weakness or disease of the kidneys. They go on, allowing it to gradually grow worse, allowing the kidneys to be clogged up, allowing them to become congested and inflamed and finally the little tubules are destroyed completely, producing Bright's disease and death, because the poisons and the waste matter that should be thrown off of the system through the kidneys is absorbed back into the blood, producing a slow form of poison that destroys nerves, muscles and vitality. In the early stages of kidney troubles, it may only show by an irritated bladder, burning, or backache, or simply weakness. But whenever this organ is not acting normally, you should have it treated immediately because it is sure death if you don't stop it. The kidney is the sewer of the body and must be kept open.

I call especial attention to these diseases for the reason that my Neuropathic system of treatment has a quicker effect on such diseases as these than many others. It acts quickly on the nervous system, circulation of blood, kidneys, bowels, liver and skin. I can give almost immediate relief to almost every case of this kind and give a complete, positive cure, if the patient will follow my advice and my treatment a reasonable time. My Neuropathic system cleanses and purifies the blood. It relieves the weakness and congestion about the heart, relieves the pressure in the small capillary blood vessels, so that the blood, when it leaves the heart, can go out naturally into the muscles, nerves, and extremities; and when that commences, in every case the disease deposit rapidly absorbs and disappears. I want every one suffering with these three diseases to call on me this trip. I will make a complete examination of the kidneys, of the heart, and tell you exactly the condition you are in, and if the disease has not gone too far, I will give you almost immediate relief and a complete cure. To prove this, I will give my services free to every person that calls on me this trip. I want to give you no excuse to go ahead and suffer with these diseases. There is no reason why you should suffer day in and day out with every change of weather with rheumatism. It can be cured absolutely. There is no excuse for you to quietly sit down and allow your weakness and disease of the heart and the kidneys to gradually grow worse and to become an organic disease, when you know it is going to kill you. When you know if you wait too long, until the internal tissues of this organ are destroyed, nothing else can be done. My Neuropathic system of treatment has the most immediate effect on these cases. I want to prove it to you. All I ask of you is to come and see me. You cannot refuse this offer. You owe it to yourself and family and to this new scientific treatment to call on me and let me examine and explain all these things. Remember, I treat all chronic weakness and disease, no matter of what kind. My Neuropathic system of treatment has given relief in thousands of cases when all others failed. I use no strong poisonous medicines. There is a combination of treatment, both internal and local. You have never used anything like it. I want to explain this to every man, woman or child suffering with any chronic disease, weakness, on this trip. Come early, it may be necessary to see you two or three times, especially if your case is severe and chronic. Remember, I treat no case by mail. I must make a complete examination of the case first. I do this for you free of charge on this trip. I will be at the Nachusa House from Monday, Feb. 24, until Wednesday night, Feb. 26.

DEMENTTOWN ... DOINGS

There are a lot of cities that expect to enjoy municipal ownership some day, but not until municipal ownership is out of date.

It must be mighty aggravating to a hostess to prepare a swell feed of roast turkey, etc., only to find that her guest is a vegetarian.

It has always been a source of wonder to us where the fellow who names the Pullman cars gets his imagination.

It is reported that there are no less than 300 oldest Odd Fellows in the country.

SPECIAL

Goose Hollow—Extra—Fire of unknown origin started in Uncle Ezra Perkins' whiskers last Saturday afternoon and the north side of them was almost entirely consumed before Wild Awake hose company got on the job. Uncle Ezra is very bitter in his criticism of the fire department for its laggardly way of doing business. There was no insurance.

Finally Got Him.

At a recent women's meeting the following story was told by one of the guests, who vouched for its veracity:

A certain little rascal of Dixon was finally persuaded to attend Sunday school. He was asked, after the session, what he had learned, and replied, "Nothing."

"But who did they talk about?" his mother asked.

"Oh, some feller. I can't think of his name."

"Was it Jesus?"

"Nope."

"Was it God?"

"Nope."

"Abraham?"

Again a negative reply.

"Isaac?"

Same answer. Nothing doing.

"Jacob?"

"Nix. That ain't the feller."

His mother gave it up in disgust.

But four or five days later she found out, while purchasing some groceries. She entered the store, accompanied by the little fellow, and while they were in the store a man entered.

Walking forward to the new customer, a clerk greeted him: "Good morning, Mr. Lord."

Whereupon the little fellow jerked at his mother's dress and said:

"Dat's de guy we talked about last Sunday."

A German farmer lost his horse and wanted to advertise it. The editor asked him what he wished to say.

"Yust put vat I told you," replied the man. "One nite the udder day about a week ago last month I heard me a noise by the frunt middle of de pac yard vich dit not use to be."

U.S. WILL WATCH NEW GOVERNMENT

America's Attitude Toward Mexico Will Be Guided By Huerta's Stand.

WILL KEEP TROOPS PREPARED

President Taft May Answer the Personal Message of the Provisional Chief Executive of the Southern Republic.

Washington, Feb. 20.—Within a week, at the longest, the new Mexican congress should be in session, in conformity with the call just issued by General Huerta. Upon the extent to which General Huerta and his group transfers to the congress the powers of government will depend the attitude of the United States toward the defacto government of Mexico.

If constitutional forms are observed and the congress is allowed, without duress, to discharge its lawful duty of selecting a provisional president, and then providing for the holding of general elections, the United States government can be relied upon to give support to the efforts of those now in control in the Mexican capital.

Meanwhile the attitude of the administration here will remain one of passive though interested observation and the military readiness will be maintained.

Taft May Answer Huerta.

Probably some reply will be made by President Taft to the personal message from Gen. Victoriano Huerta, who signed himself commander in chief, announcing that he had overthrown the Madero government, but it will be of such a nature as not to constitute a political recognition of the new government.

Ambassador Wilson is expected to communicate freely with General Huerta, to transact the ordinary business of the embassy, and his example, it is expected, will be followed by the diplomatic representatives of the other powers, all such exchanges being on a de facto basis.

Would Extend Inquiry.

A resolution to extend until next December the period of activity of the senate special committee appointed to investigate alleged support by Americans of the revolutionary forces in Mexico was introduced in the senate by Senator Smith of Michigan, with the indorsement of the senate committee on foreign relations.

The bill authorizing payment of \$71,000 to citizens of El Paso, Tex., and Douglas, Ariz., for injuries received from shots fired across the boundary line by Mexican revolutionists in 1911 passed the senate and has still to be acted on by the house.

Americans who fled in terror from Mexico City to embark from Vera Cruz for the United States are cancelling their bookings on steamships.

Huerta Promises Peace.

President Taft received the following telegram from Victoriano Huerta, Mexico's provisional governor general:

"I have the honor to inform you that I have overthrown this government, the forces are with me and from now on peace and prosperity will reign. Your obedient servant."

"VICTORIANO HUERTA, Commander in Chief."

HELEN TAFT TO WED

Will Be 13th White House Bride Is the Rumor.

President's Daughter Said to Be Engaged to Marry Dr. Cary Grayson Very Soon.

Washington, Feb. 20.—Will Helen Taft capture the honor of being the thirteenth White House bride from the Misses Wilson, the favorite daughter of the lucky thirteen, is the question that is agitating Washington society.

There are strong rumors afloat that Miss Taft will marry Dr. Cary Grayson, to whom her friends say she is engaged, before she leaves the White House. It is a significant fact that the rumor of Miss Taft's engagement to Doctor Grayson has never been commented on or denied by the presidential family. The rumor of an impending marriage meets with the same silence and society is on the qui vive for a surprise White House wedding party.

PAPE'S DIAPEPSIN REGULATES STOMACH

TIME IT! IN FIVE MINUTES THE GAS, SOURNESS, HEARTBURN, AND INDIGESTION MISERY IS GONE.

Do some foods you eat hit back—taste good, but work badly; ferment taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so that you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. Diapepsin is quick, positive and puts your stomach in a healthy condition, so the misery won't come back.

You feel different as soon as Diapepsin comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

Will Exile Deposed President.

The rebels, however, have arranged to ship Francisco Madero, the deposed president, out of the city, en route to Vera Cruz, where he may take ship for some European port just as did Porfirio Diaz, whose downfall he brought about.

Former President Madero will be accompanied on his exile by his wife and perhaps by his father and other members of his family. His loyal aide, Captain Montez, also will be a member of the party, but goes in the capacity of a guard. The party will proceed from this city to Vera Cruz under escort.

Country in State of Anarchy.

All Mexico, outside of Mexico City, is in a state of anarchy and chaos, according to reports received here from various points.

The roving bands of bandits, emboldened by the overthrow of Madero, are ravaging and burning towns and looting and pillaging the isolated haciendas. Conditions are described by these reports as far worse than they have ever been heretofore.

A movement is also under way to overthrow all the governors appointed by Madero.

Huerta in Control of Affairs.

General Huerta, as military dictator, was abroad early directing the affairs of the city. General Blanquet assumed control of the federal district as military governor. One of Huerta's first acts was the removal of Madero and the other prisoners who had been kept under guard in the national palace during the night to the arsenal.

Felix Diaz and General Huerta met at the American embassy shortly after eight o'clock and formally ratified their agreement providing for the provisional government of the city. Huerta then dispatched telegrams to all the military commanders in Mexico asking them to secure the allegiance of all rebels to the new government.

The chamber of deputies and the senate met in executive session shortly after nine o'clock and formally accepted Madero's resignation and took steps to choose a provisional president.

Sought to Murder Huerta.

In a statement General Huerta says that two attempts were made against his life before the arrests, and he attributes both of them to the Maderistas. The first attempt was made by a sharpshooter, who tried to pick him off while in the palace. This General Huerta laid at the door of the ex-president.

The second attempt was made at the banquet, which culminated in Gustavo Madero's arrest. Huerta says he was repeatedly urged to drink poisoned wine from a bottle. He was suspicious and refused to do so.

HUERTA SWORN IN AS MEXICO'S HEAD

Succeeds Pedro Lascurain as Provisional President of Distressed Republic.

GUSTAVO MADERO IS KILLED

Deposed Chief Executive Will Be Executed—Anarchy and Chaos Reign Over Country—Bandits Burning Town and Looting Haciendas.

Mexico City, Feb. 20.—Pedro Lascurain was chosen provisional president by congress by a vote of 123 to 5 at 10:15 last night.

Senor Lascurain was chosen provisional president ad interim by virtue of his office as minister of foreign affairs, in order that there should be no vacancy.

When General Huerta was chosen provisional president he succeeded Lascurain. Huerta was sworn in at 11:15.

The new cabinet, it is believed, will be composed as follows, subject to the ratification of congress.

Proposed New Cabinet.

Foreign minister—Francisco de la Barra.

War minister—General Manuel Mondragon.

Finance minister—Carlos G. de Cosio.

Minister of fomento—Alberto Gil.

Minister of the interior—Alberto Garcia Granadas.

Minister of justice—Rodolfo Reyes.

Minister of public instruction—Jorge Vera Estanol.

Minister of communications—David de la Fuente.

When Gustavo Madero was told that he would be executed he was in a terrible fright. He begged piteously for his life and tried to bribe his guards by promising untold wealth to them if they would permit him to escape. Finally when he was being led to the wall against which he was to stand, he fell on his knees and wept and pleaded for his life.

Madero Shot Eighteen Times.

Suddenly he jumped up and ran in an attempt to gain his freedom, but before he had taken many steps he was brought down by 18 pistol shots hitting him, making 36 wounds.

The body now lies on a couch in the arsenal, where it has been viewed by hundreds.

The "Ley Del Fuego" is a pleasant old Mexican custom of taking a prisoner from one place to another and killing him on the way, the report being made that the prisoner attempted to escape. It is an easy way of execution without the process of law and thousands have been put away by this route.

PEOPLES COLUMN

S. W. EAKIN Makes Statement
Editor of The Telegraph:—

At the time I was excused from the jury in the Mighell case I did not know the cause, but Judge Farrand said that he would inform me later on. Last night at 8 o'clock my attention was called to an article in The Telegraph in regard to the matter, and of course I knew at once that I was the man referred to. This morning I interviewed Judge Farrand, and he told me, as reported in The Telegraph, that such a conversation had been had with one of the deputies, and reported to him. I got Deputy Schoenholtz and went to George H. Smith, restaurant keeper, and made the proposition to him if he would make an affidavit as I might dictate to him, pay for it and allow me to publish it as my property, so far as I was concerned we would drop the matter. Otherwise I would sue him for libel. I consider it is a damage to me in the community, as I claim to be an honorable citizen, and I hope that people will give this statement the same weight that they did the article in The Telegraph.

(Signed) SAMUEL W. EAKIN.
The Affidavit.

State of Illinois, Lee County, ss.
George J. Smith being first duly sworn on his oath, states that he is the person to whom reference is made in an article in the Dixon Evening Telegraph of date of Wednesday, Feb. 19th, 1913, concerning certain statements made by Samuel W. Eakin, one of the accepted jurors to try the case of the People vs. Ira Mighell.

This affiant further states on oath that although he made the statement

that the said Samuel W. Eakin said in his presence that if he succeeded in getting on the jury he would see what could be done to fix things; this affiant further states on oath that upon reflection and consideration he now states that said Samuel W. Eakin did not use said language or any other language of like import; that he has never heard said Samuel W. Eakin discuss the Ira Mighell case or say anything for or against said Mighell and never discussed in his presence the question of getting on the jury or state what he would do if he did get on the jury; that this affiant states on oath that he was mistaken when he made the statement reported in the Telegraph and that said Eakin did not say anything concerning the Mighell case to him or in his presence.

And further this affiant sayeth not.
(Signed) GEORGE J. SMITH.
Subscribed and sworn to before me this 20th day of February, A. D. 1913.

Editor of the Telegraph:

Dear Sir—As I have just returned from Evanston, where I have rented a store and will locate, I have heard a rumor from people in Dixon and Polo that I was the man called "Woman in White." Being that I have just sold my establishment, it looks very much like it. I wish to say to the public that all such rumors are false, and can be proven by the city authorities.

Mrs. Dwyer, sister of Mrs. Charles Davis, is here from Oswego visiting her sister and her mother, Mrs. Rice, who has been spending some time here with her daughter, Mrs. Davis. Mrs. Rice has been quite ill but is improving.

Following the lead of Ashton some of our people are awakening to the necessity of doing more than at present for the education of the children and housing them. They also feel the need of vocational instruction and training especially for the children who do not adapt themselves to academic lines. Many a child who fails to do successful academic work will succeed if given an opportunity with domestic science, agriculture, book-keeping, shorthand and typewriting, manual training and other kindred subjects.

\$1275 Buys This Remarkable PAIGE 36

Gray and Davis Electric Starting and Lighting System, Silent Chain Driven Motor Gears, 116 inch Wheel Base, 34x4 inch Tires, Left-side Drive, Center Control, Cork Insert Clutch.

YOU KNOW a good deal about the unusual equipment of the Paige "36." You know it has the famous Gray & Davis Electric Starting and Lighting System. That point of itself is enough to mark the Paige as a distinctive value in its price field. You know it has the Bosch Magneto for ignition. No better to be had. Then think of all the rest of the equipment—ventilating windshield (built into the body), silk mohair top (tan lined), ton boot and curtains, Stewart revolving dial speedometer, 12-inch electric headlights, electric side and tail lamps, five demountable rims, robe and foot rails, extra tire irons, license bracket and all the incidental equipment such as horn, pump, jack, tools, etc. The trimmings throughout are of heavy nickel.

BUT NOW WE WANT TO EMPHASIZE THIS ONE FACT—THAT THIS EXTRAORDINARY EQUIPMENT IS NOT ONE WHIT MORE EXTRAORDINARY THAN THE CONSTRUCTION OF THE CAR

It is generally conceded that we have accomplished a great work in being able to produce and sell the Paige "36," with such splendid equipment, for \$1275.
It is a great work because, leaving aside any consideration of the equipment, the car itself is an extraordinary car.
The quality of the car, from any viewpoint, measures right up to the quality of the equipment. If anything above it.

This statement is easily provable. We want your primary consideration on the CAR, not the equipment. The Paige motor has made the Paige reputation. For the Paige motor is right. We build our own motors in our own modern plant, and we could not build them more carefully or test them more accurately if we were building them for a \$2500 car.

The Paige "36" motor is a powerful, quiet, economical 4-cylinder engine. It has a 5-inch stroke, with 4-inch bore. The cylinders of gray iron are cast en bloc, giving the utmost rigidity and perfect alignment, with the highest degree of simplicity.

We do not simply bore and ream our cylinders. We bore and ream them and then we season them for weeks. And after they are seasoned we grind them to a hair-line precision. It's a high-price practice but it's greater pride. It is perfect and constant.

The Paige "36" motor is as quiet as the watch in your pocket. We believe it is as quiet as any motor ever built. Our chaindrive for camshaft and pump shaft help make it quiet.

The aluminum crank case is light and strong, as a crank case should be.

Paige "36" lubrication is a feature of this unusual car. In no other detail of Paige "36" design do we feel that it is perfect and constant.

Crowded houses nightly enjoyed her bubbling Fountain Play song and the romantic Two Little Love Bees duet. The seductive waltz, Day Dreams, sung from her balcony window in the moonlight, with the dashing prince hidden in the garden below, won a thousand encores. Chaperoned by her royal father, Prince Nepomuk, disguised as her aunt, Bozena leads her royal lover a merry chase and keeps her audience convulsed with laughter at every performance.

Ideal Club Met.

The Ideal club met with Mrs. Floyd Teachout yesterday. The meeting opened with a double reading by Mrs. Lloyd Lewis, both being much enjoyed. Mrs. Henry Leydig gave a resume of her trip through Washington and New York. Mrs. W. C. McWethy gave a book review entitled, 'A Kentucky Cardinal' by James L. Allen. The writing of the book reviews seems to be Mrs. McWethy's forte, for she displayed so much talent in preparing them that they are in great demand. A business meeting was then held and afterward the hostess served delicious refreshments. The members departed declaring this one of the most enjoyable meetings in the history of the club.

JUDGE FAVORS DARROW

Will Instruct Jury to Disregard McManigal's Story.

Court Announced After Inspecting Record That No Foundation Had Been Laid for Testimony.

Los Angeles, Cal., Feb. 20.—The jury in the Darrow case will be instructed by Judge Conley to disregard the greater part of the story told by Ortie E. McManigal, self-confessed dynamiter, from the witness stand a week ago. The court announced that after an inspection of the record he was convinced that no foundation had been laid for McManigal's testimony and that it was inadmissible as the prosecution had failed to prove that Darrow authorized any agent to make any offer for the purpose of changing the testimony McManigal was to give in the McNamara case in which he was to have been the principal witness for the state.

McManigal testified that his uncle, George Behm, and his wife came to him in the Los Angeles jail before the McNamara trial and, representing themselves as coming from Darrow, made him various propositions to come over to the side of the defense and declare that his confession, previously made to the district attorney, was untrue. They told him, he said, that he would be released on bonds; that Darrow would defend him, that he would be taken to Chicago and a good position assured for him and finally, he testified, Behm offered to secure for him \$5,000 from Darrow.

ALIEN BILL IS KILLED

House Refuses to Pass Measure Over Taft's Veto.

President is Sustained by a Vote of 213 to 114, Five Ballots Less Than Necessary Two-thirds.

Washington, Feb. 20.—President Taft's veto of the immigration bill was sustained by the house of representatives by a vote 213 to 114, two-thirds of the house failing to vote to override the president. An attempt by Representative Gardner of Massachusetts to obtain a reconsideration of the vote was declared out of order by Speaker Clark, and upon his appeal from the decision of the chair Mr. Gardner was defeated by an overwhelming viva voce vote, both Republicans and Democrats joining in support of the speaker.

By the action of the house, which was absolutely untrammelled in its vote, President Taft having specifically declined to solicit support for his veto, the literacy test, requiring that aliens coming into the United States shall be able to read at least forty words in their native language, is defeated for this congress. The immigration bill contained in addition many important and salutary amendments to the immigration law which President Taft expressed regret in vetoing, but the cause of the fight was the literacy provision. Upon its party lines split in the house.

ANOTHER WAR IS NEAR

Alarming Reports Over Bulgarian Rumanian Crisis.

Latter Country Openly Threatening Former, According to Correspondents in the East.

London, Feb. 20.—Alarming reports of the Bulgarian Rumanian crisis suggesting imminent war come from the Daily Mail correspondents. The first, dated Sofia says:

"Simultaneously with the request of the powers for mediation, Rumania is openly threatening Bulgaria. The Bulgarian minister in Sofia threatens to leave for Bulgaria very shortly and reports that the Rumanian government is completing preparations for the recall of the reservists to the colors have been received. Rumanian artillery and cavalry are assembled on an island in the Danube facing Bulgarian territory in Silistria. These facts make the worst possible impression here and the prospect of an agreement is now seriously compromised."

The second, dated Bucharest, says: "In a note dispatch to Sofia the Rumanian government rejects the latest proposals of the Bulgarian government as unsatisfactory. Consequently the urgent desires of the powers which are ready to mediate or arbitrate, the Rumanian government abstains provisionally from adopting extreme measures."

ANOTHER CUBAN REVOLT

U. S. Notified That a New Rebellion Was Brewing on Island.

Havana, Feb. 20.—Information that the American government had been advised of the brewing of another Cuban revolution was received in a telegram from the Cuban minister in Washington. The rumor was immediately denied by President Gomez, who issued the following statement from the palace: "I deem it my duty to contradict publicly the rumors that are in circulation everywhere in regard to a revolutionary movement. This country desires and will maintain peace."

It has been recovered. Cards in Scott's pockets bore the name Ross K. Schutt and the prisoner admitted he had gone under that name also.

MINE EXPLOSION KILLS 5

Three Others Are Injured; 200 Escape Underground Blast.

El Dorado, Ill., Feb. 20.—Five men, all foreigners, were burned to death by an explosion in the Seagraves mine near here. Three men were hurt. The explosion occurred just after the miners had gone to work, and two or three hundred were in the workings at the time. The disaster occurred near the entrance, and all except the eight who were caught in the blast escaped unhurt.

Christchurch, New Zealand, Feb. 20.—A fortune in ambergris is reported by the whaler Norvegia, which arrived here with nearly half a ton of the precious substance aboard. It is said that the ambergris is worth \$300,000 and that the catch breaks all records.

LLOYD-GEORGE'S HOUSE WRECKED

Chancellor of British Exchequer's Country Residence Demolished.

MRS. PANKHURST TAKES BLAME

Walton Heath Practically Destroyed—Infernal Machine So Powerful That Thick Walls of Building Split in All Directions.

London, Eng., Feb. 20.—The country residence of Chancellor of the Exchequer David Lloyd-George at Walton Heath was practically destroyed by a bomb which, police say, was placed there either by militant suffragettes or their male sympathizers. Lloyd-George himself is on a motor trip in France. Nobody was injured, as the residence had not yet been occupied.

The infernal machine was so powerful that the thick walls of the house split in all directions and most of the rooms were wrecked. Two seven-pound cans of black powder also had been placed in two separate rooms among heaps of wood shavings, which had been saturated with oil and in the center of which burning candles had been fixed.

Hatpins the Only Clue. The only clues obtained by the police are two broken hatpins, which were found among the wreckage. It is declared by neighbors that an automobile containing several women passed through the village in the early hours.

An official of the Woman's Social and Political union told the police that the society had no knowledge of the perpetrator.

Mrs. Pankhurst Accepts Responsibility. Mrs. Pankhurst, speaking here before her departure for Cardiff, accepted full responsibility for the outrage. She said:

"It is my intention to keep up a relentless warfare until the government decides to give us the vote, and," she added, "to say to what extent we will go is for the government to decide. I say, however, that we shall not cease operations until we get what we want. We have been patient all along and the result has been that we were treated with indifference by the heads of the government and the members of parliament. Because we were women they thought they could do with us as they pleased, but I think that we are showing them that we can be effective, and we will show them much more before we are through."

To Make Public Life Unbearable.

"The real American revolution started with the battle of Lexington and the real revolution in England started seven years ago at Manchester, when we demanded to know what the government was going to do for the women? So far our warfare has not cost any human lives on the side of our opponent, and we will always respect human life, but you may say we will not cease until we have been given the vote. Our object is to arouse the public so that they will demand that the government will do something, and until they do we will make life unbearable to the public."

"In America they are making great headway than we are and they are doing it with far less fighting than we. The English custom is what is holding us back here, but we will win in spite of everything."

NO CHANGE BY WILSONS

President-Elect and Wife Will Retain White House Employees.

Washington, Feb. 20.—Authentic information received in Washington is that President-elect and Mrs. Wilson will retain the majority of the employees in the White House proper and in the executive offices, having determined that they do not care to be bothered by a number of changes and the confusion that would result from many new persons around them. This decision has been reached in spite of hundreds of applications for positions in and around the White House, all of them backed by persons of political and social influence.

Mine War Incendiaries Attempt to Burn Maj. Payne's Home.

Charleston, W. Va., Feb. 20.—Incendiaries set fire to the house occupied by Maj. J. B. Payne of the West Virginia National guard, on duty in the martial law zone at Dakota, not far from Paint Creek. Major Payne and Mrs. Payne narrowly escaped death. Two adjoining houses, property of coal companies, also were burned.

Mrs. Longworth as Milliner.

Washington, Feb. 20.—Mrs. Nicholas Longworth, Miss Alys Meyer and Viscountess d'Azy were voted the expert society milliners of Washington after their beautiful trimmed hats were exhibited and sold for fancy prices to the smart set at the hat show of the Children's Country home.

Morgan Goes for a Drive.

London, Feb. 20.—J. P. Morgan, according to a dispatch from Cairo, went out driving there. He is recovering from his attack of indigestion. His granddaughter has left Egypt for Rome.

Woman Is As Old As She Looks

No woman wants to look old. Many in their effort to look youthful resort to the "beauty doctor's" prescriptions. Their mistake is that they visit the wrong department in the drug store. Beauty depends upon health. Worry, sleepless nights, headaches, pains, disorders, irregularities and weaknesses of a distinctly feminine character in a short time bring the dull eye, the "crow's feet," the haggard look, drooping shoulders, and the faltering step. To retain the appearance of youth you must retain health. Instead of lotions, powders and paints, ask your druggist for

"Our Personal Guarantee to all Skin Sufferers"

We have been in business in this town for some time, and we are looking to build up trade by always advising our patrons right.

So when we tell you that we have found the eczema remedy and that we stand back of it with the manufacturer's iron clad guarantee, backed by ourselves, you can depend upon it that we give our advice not in order to sell a few bottles of medicine to skin sufferers, but because we know how it will help our business if we help our patrons.

We keep in stock and sell, all the well known skin remedies. But we will say this: if you are suffering from any kind of skin trouble, eczema, psoriasis, rash or fever, we want you to try a full size bottle of D. D. D. Prescription. And, if it does not do the work, this bottle will cost you nothing. You alone to judge.

Again and again we have seen how a few drops of this simple wash applied to the skin, takes away the itch, instantly. And the cures all seem to be permanent.

D. D. D. Prescription made by the D. D. D. Laboratories of Chicago, is composed of thymol, glycerine, oil of wintergreen and other healing, soothing, cooling ingredients. And if you are just crazy with itch, you will feel soothed and cooled, the itch absolutely washed away the moment you applied this D. D. D.

MUSIC AND THE LAW

FAMOUS COMPOSERS WHO WERE
DESTINED FOR BAR.

More Men Left Study of Jurisprudence
to Follow "Divine Art" Than in
Case With Any Other
Profession.

It is surprising to think of any close bond between the profession of the law and that of music, but a writer in the *Juridical Review* asserts that "more great composers have left the study of jurisprudence to devote themselves to that of the 'divine art,' or combined the two, than is the case with any other profession."

Kuhnau, the forerunner of Bach, studied law to the extent of qualifying as an advocate, and when he died in 1722 was one of the most famous men of his time. Bach was not a lawyer, but he endeavored to put two of his sons into the profession, one of them, the famous Emanuel Bach, studying jurisprudence at the University of Leipzig.

Likewise their English contemporary Arne, composer of the *Rule Britannia*, served two years' apprenticeship to a solicitor. Handel and Holzbauer were both destined for the law. Marcello of Venice combined the practice of music with that of the law, and Rocklitz came very near entering the profession.

Undoubtedly the greatest composer who actually entered on a study of the law was Robert Schumann, the centenary of whose birth was recently celebrated. Between Romanticism, with its cult of pure imagination, its fondness for the supernatural and abhorrence of formalism and precedent on the one hand and forensic principles on the other there would appear to be a sharp contrast, if not absolute antagonism.

Schumann was the incarnation of romanticism and in music its chief apostle. One is not surprised therefore to read that his entering Leipzig university as studious juris was solely to please his widowed mother, who would not hear of his following an artist's career. Nor is it surprising that she defeated her own end.

At Heidelberg university, to which Schumann shortly transferred himself, her son made the acquaintance of Willibald Alexis, who had already trodden the path Schumann was destined to follow—that through the law to music. And the eminent jurist whose classes he attended, A. F. J. Thibaut, was an amateur musician of high attainments and the author of a work on precisely that aspect of music to which Schumann was peculiarly sensitive, namely, purity in musical art. Moreover, Schumann studied long enough—in all two years—and ultimately hard enough to prove that failure was due to his utter incapacity for a legal career.

Gottfried Weber, doctor of laws and philosophy and state attorney at Darmstadt, was not only proficient on the piano, flute and violoncello but became eminent as a musical theorist. Siegfried W. Dehn, who is remembered chiefly as a critic and the artist, and as the teacher of Glinka, Kullak and Rubinstein, studied jurisprudence at Leipzig from 1819 to 1823. And Von Bulow only after two years' study of the law at Leipzig and Berlin threw over his career as a lawyer.

Used Wells as Granaries?

In the counties of Kent and Sussex in England there are to be seen certain curious well-like excavations, popularly supposed to date from the time of Danish rule in England. These are invariably about three feet in diameter, and seldom less than sixty feet in depth. Ingress and egress were provided for by means of rude ladders or hide ropes.

Various explanations have been offered to account for their existence, some supposing them to have been places of refuge, others that they were connected with secret forms of worship, still others that they were dug for the extraction of chalk and flint. The latter theory inclines to the view that the holes were made to serve as granaries. They are found close together in groups, corresponding with the habit of various tribes of clustering in restricted areas.—Harper's Weekly.

Ambiguous.

Mrs. Knagg—"You may not know it, but I had refused Billy Batch, who stood up with you when we were married." Mr. Knagg—"Well, the best man won."

Take His Away.

Man, says a French savant, has six times more lung capacity than he needs. How about the artist who plays on the slide trombone?—Chicago Record-Herald.

Boy's Essay on the Ostrich.

Ostriches are different from geese. Geese can swim and lay eggs but cannot kick, while an ostrich can kick and lay eggs like a horse.—Woman's World.

Killed Despite Handicap.

Napoleon's wars were fought with flintlocks; but he was a pretty successful killer, despite the handicap.—Chicago News.

Auto Suggestion.

Do not forget to carry a pencil and a pad of paper so that you may take down the number of the motor car that runs over you.

The Basis of All Wealth.

Land is the basis of all wealth. The surest investment. There will be crops of corn and grains each year, and new crops of people, but only one crop of land. The most fertile land in the world lies in the RED RIVER VALLEY of North Dakota and Minnesota. I have some rare bargains in that district. Come in and talk to me about these.

LITTLE TOM THUMB POP CORN

is the finest pop corn grown. The larger the ear the heavier the hull around the kernel of corn. The Little Tom Thumb takes its name from the fact that the ears are only about the size of your thumb. Hence the hull around the kernel is hardly noticeable when popped. If you have not tried it, you can not realize the difference this makes on the quality.
